## Education

|                                                                                  |                                |
|----------------------------------------------------------------------------------|--------------------------------|
| <b>Integrated M.Tech(B.Tech+M.Tech) in CSE</b>   Vellore Institute of Technology | CGPA – 8.00/10   2022-2027     |
| <b>12th Standard</b>   Govt. Excellence Hg. Sec. School, Ashta                   | Percentage – 80%   2021-2022   |
| <b>10th Standard</b>   Pushpa Sr. Sec. School, Ashta                             | Percentage – 70.2%   2019-2020 |

## Experience

### Data Science Intern

CodeSoft Jan 2024-Feb 2024

- Developed Python-based machine learning and data analysis projects using Pandas, NumPy, and Scikit-learn.
- Performed data preprocessing, feature engineering, and model evaluation on real-world datasets.
- Built predictive models and visualized insights using Matplotlib and Excel.
- Improved analytical and problem-solving skills through hands-on project implementation.

## Technical Skills

- Programming Languages:** Python, SQL
- Frameworks & Libraries:** Pandas, NumPy, Matplotlib
- Developer Tools:** Git, GitHub, VS Code, Jupyter Notebook
- Databases:** SQL, PostgreSQL
- Software Engineering:** Data Structures & Algorithms, Operating Systems, Computer Networks, Database Management Systems, Object-Oriented Programming

## Projects

### Credit Card Fraud Detection | Machine Learning Project

- Developed a fraud detection model using Logistic Regression and ensemble techniques, achieving 87% classification accuracy.
- Performed data preprocessing, imbalance handling, and feature engineering to improve fraud detection performance.
- Reduced false positive rates by 16% through hyperparameter tuning and optimized model evaluation techniques.
- Tech Stack: Python, Pandas, NumPy, Scikit-learn, Matplotlib

### Movie Rating Prediction | Machine Learning Project

[GITHUB](#)

- Built a predictive machine learning model to estimate movie ratings using features such as genre, cast, and director.
- Conducted exploratory data analysis (EDA), feature extraction, and preprocessing on movie datasets.
- Applied regression-based modeling techniques to improve prediction accuracy.
- Tech Stack: Python, Pandas, Scikit-learn, Matplotlib

## Certificates / Achievements

- SQL(Advanced) – HackerRank(2026)
- Applied Machine Learning in Python – CourseEra(2023)
- HackerRank 5 star in SQL.

## Leadership

- Volunteered as an active member of the NSS Club, participating in social awareness drives, community service activities, and event management initiatives.
- Worked as an Intern at Kanchan Education and Welfare Society, contributing to educational and social welfare programs while improving teamwork, communication, and organizational skills.
